INSERT "Because the DSM adjustor is based on a projected budget, the Cooperative should only need to make an additional filing if it needs to implement a new program with substantial benefits, or additional funding is required for an existing program that has demonstrated substantial system or societal benefits."

Page 27, line 20

INSERT "The Cooperative also requests that the WPFCA include fuel costs that would arise from its own generating units."

Page 28, line 13

INSERT "Staff does not oppose the collection of fuel costs associated with future Cooperative owned generation plants." (fn Ex S-12 McNeely Kirwin Direct at 11.) Staff recommends certain fuel expenses that should be included in the WPFCA. (fn Id. at 11-12)

INSERT "We concur with the parties that the WPFCA may include fuel costs associated with future Cooperative owned generation units, but make no conclusions at this juncture about the prudence of these potential future costs. We also adopt Staff's recommendations as set forth in the direct testimony of Ms. McNeely-Kirwin concerning the costs that are appropriately included in the WPFCA."
